Re: Committee Assignments

Staff,

To help our department and community be prepared for the coming new housing, industry, and future community developments we are establishing two new committees to help us gather information so that we can make informed decisions when developing staffing models, apparatus purchases, and new programs and projects for the department. After polling the staff, we had overwhelming responses from staff to participate. The committees are being established based on who responded to the inquires first and making sure we have a broad range of ranks.

Committees should meet on quarterly basis if not more often depending on the needs of the committee. The Chief, Captain and possibly an ESD Commissioner will join the committee meeting as needed to serve in an advisory capacity.
